

Before Lent begins:

Greener Lent is lenten program focused on justice for the poor who are most affected by climate degradation. By increasing the rigor of our traditional Lenten fast, we substantially reduce our personal environmental impact. This, plus our commitment to prayer and almsgiving, help turn our hearts to Christ as we prepare for his resurrection at Easter.

The Popes agree that We Need to be a Part of the Solution

Modern society will find no solution to the ecological problem unless it takes a serious look at its lifestyle. In many parts of the world society is given to instant gratification and consumerism while remaining indifferent to the damage which these cause...the seriousness of the ecological issue lays bare the depth of man's moral crisis... Simplicity, moderation and discipline, as well as a spirit of sacrifice, must become a part of everyday life, lest all suffer the negative consequences of the careless habits of a few.
